

01 Flat Roof Vapor Barrier Connection

01.04 Parapet Vapor Barrier Sleeve

01.04.0001 b/s/t Parapet Vapor Barrier Sleeve DN 50

Aluminum-butyl vapor barrier sleeve; nominal diameter DN 50; aluminum-butyl adhesive surface; EPDM cone (permanently elastic); includes talc for finishing the inside of the EPDM cone for improved lubrication; for connecting round downspouts and emergency overflows to the parapet vapor barrier; supply and professional installation.

Nominal diameter: DN 50
For pipe diameters: 50 - 72 mm
Item No.: 130-050

QUANTITY: UNIT: pcs EP: GP:

01.04.0002 b/s/t Parapet Vapor Barrier Sleeve DN 70

Aluminum-butyl vapor barrier sleeve; nominal diameter DN 70; aluminum-butyl adhesive surface; EPDM cone (permanently elastic); includes talc for finishing the inside of the EPDM cone for improved lubrication; for connecting round downspouts and emergency overflows to the parapet vapor barrier; supply and professional installation.

Nominal diameter: DN 70
For pipe diameters: 72 - 90 mm
Item No.: 130-070

QUANTITY: UNIT: pcs EP: GP:

01.04.0003 b/s/t Parapet Vapor Barrier Sleeve DN 80

Aluminum-butyl vapor barrier sleeve; nominal diameter DN 80; aluminum-butyl adhesive surface; EPDM cone (permanently elastic); includes talc for finishing the inside of the EPDM cone for improved lubrication; for connecting round downspouts and emergency overflows to the parapet vapor barrier; supply and professional installation.

Nominal diameter: DN 80
For pipe diameter: 90 - 100 mm
Item No.: 130-080

QUANTITY: UNIT: pcs EP: GP:

01.04.0004 b/s/t Parapet Vapor Barrier Sleeve DN 100

Aluminum-butyl vapor barrier sleeve; nominal diameter DN 100; aluminum-butyl adhesive surface; EPDM cone (permanently elastic); includes talc for finishing the inside of the EPDM cone for improved lubrication; for connecting round downspouts and emergency overflows to the parapet vapor barrier; supply and professional installation.

Nominal diameter: DN 100
For pipe diameter: 100 - 110 mm
Item No.: 130-100

QUANTITY: UNIT: pcs EP: GP:

01.04.0005 b/s/t Parapet vapor barrier collar DN 125

Aluminum-butyl vapor barrier collar; nominal diameter DN 125; aluminum-butyl adhesive surface; EPDM cone (permanently elastic); includes talc for finishing the inside of the EPDM cone for improved lubrication; for connecting round downspouts and emergency overflows to the parapet vapor barrier; supply and professional installation.

Nominal diameter: DN 125
For pipe diameters: 125 - 140 mm
Item No.: 130-125

QUANTITY: UNIT: pcs EP: GP:

01.04.0006 b/s/t Parapet vapor barrier collar DN 150

Aluminum-butyl vapor barrier collar; nominal diameter DN 150; aluminum-butyl adhesive surface; EPDM cone (permanently elastic); includes talc for finishing the inside of the EPDM cone for improved lubrication; for connecting round downspouts and emergency overflows to the parapet vapor barrier; supply and professional installation.

Nominal diameter: DN 150
For pipe diameters: 150 - 165 mm
Item no.: 130-150

QUANTITY: UNIT: pcs Unit price: Total price:
